

# Navigate AI. Deliver Results.

AI-Native Consulting,  
Engineering & Training.

Codavyn Corporate Overview |  
Woman-Owned Small Business (WOSB) Certified

# Adopting AI requires more than software—it demands engineering rigor.

We bridge the gap between AI hype and enterprise reality. By combining Fortune 100 consulting depth with AI-native engineering, we ensure your initiatives are built correctly, priced predictably, and governed safely.

# The shift from traditional consulting to AI-native execution.

## Traditional Approach

Hourly / T&M billing with inevitable scope creep

Months of drawn-out development cycles

Highly leveraged junior resources learning on your dime

Ethics and compliance treated as an afterthought

## Codavyn AI-Native Approach

Fixed-Bid Predictability (know your total cost upfront)

10x Faster via AI-accelerated code generation (delivered in weeks)

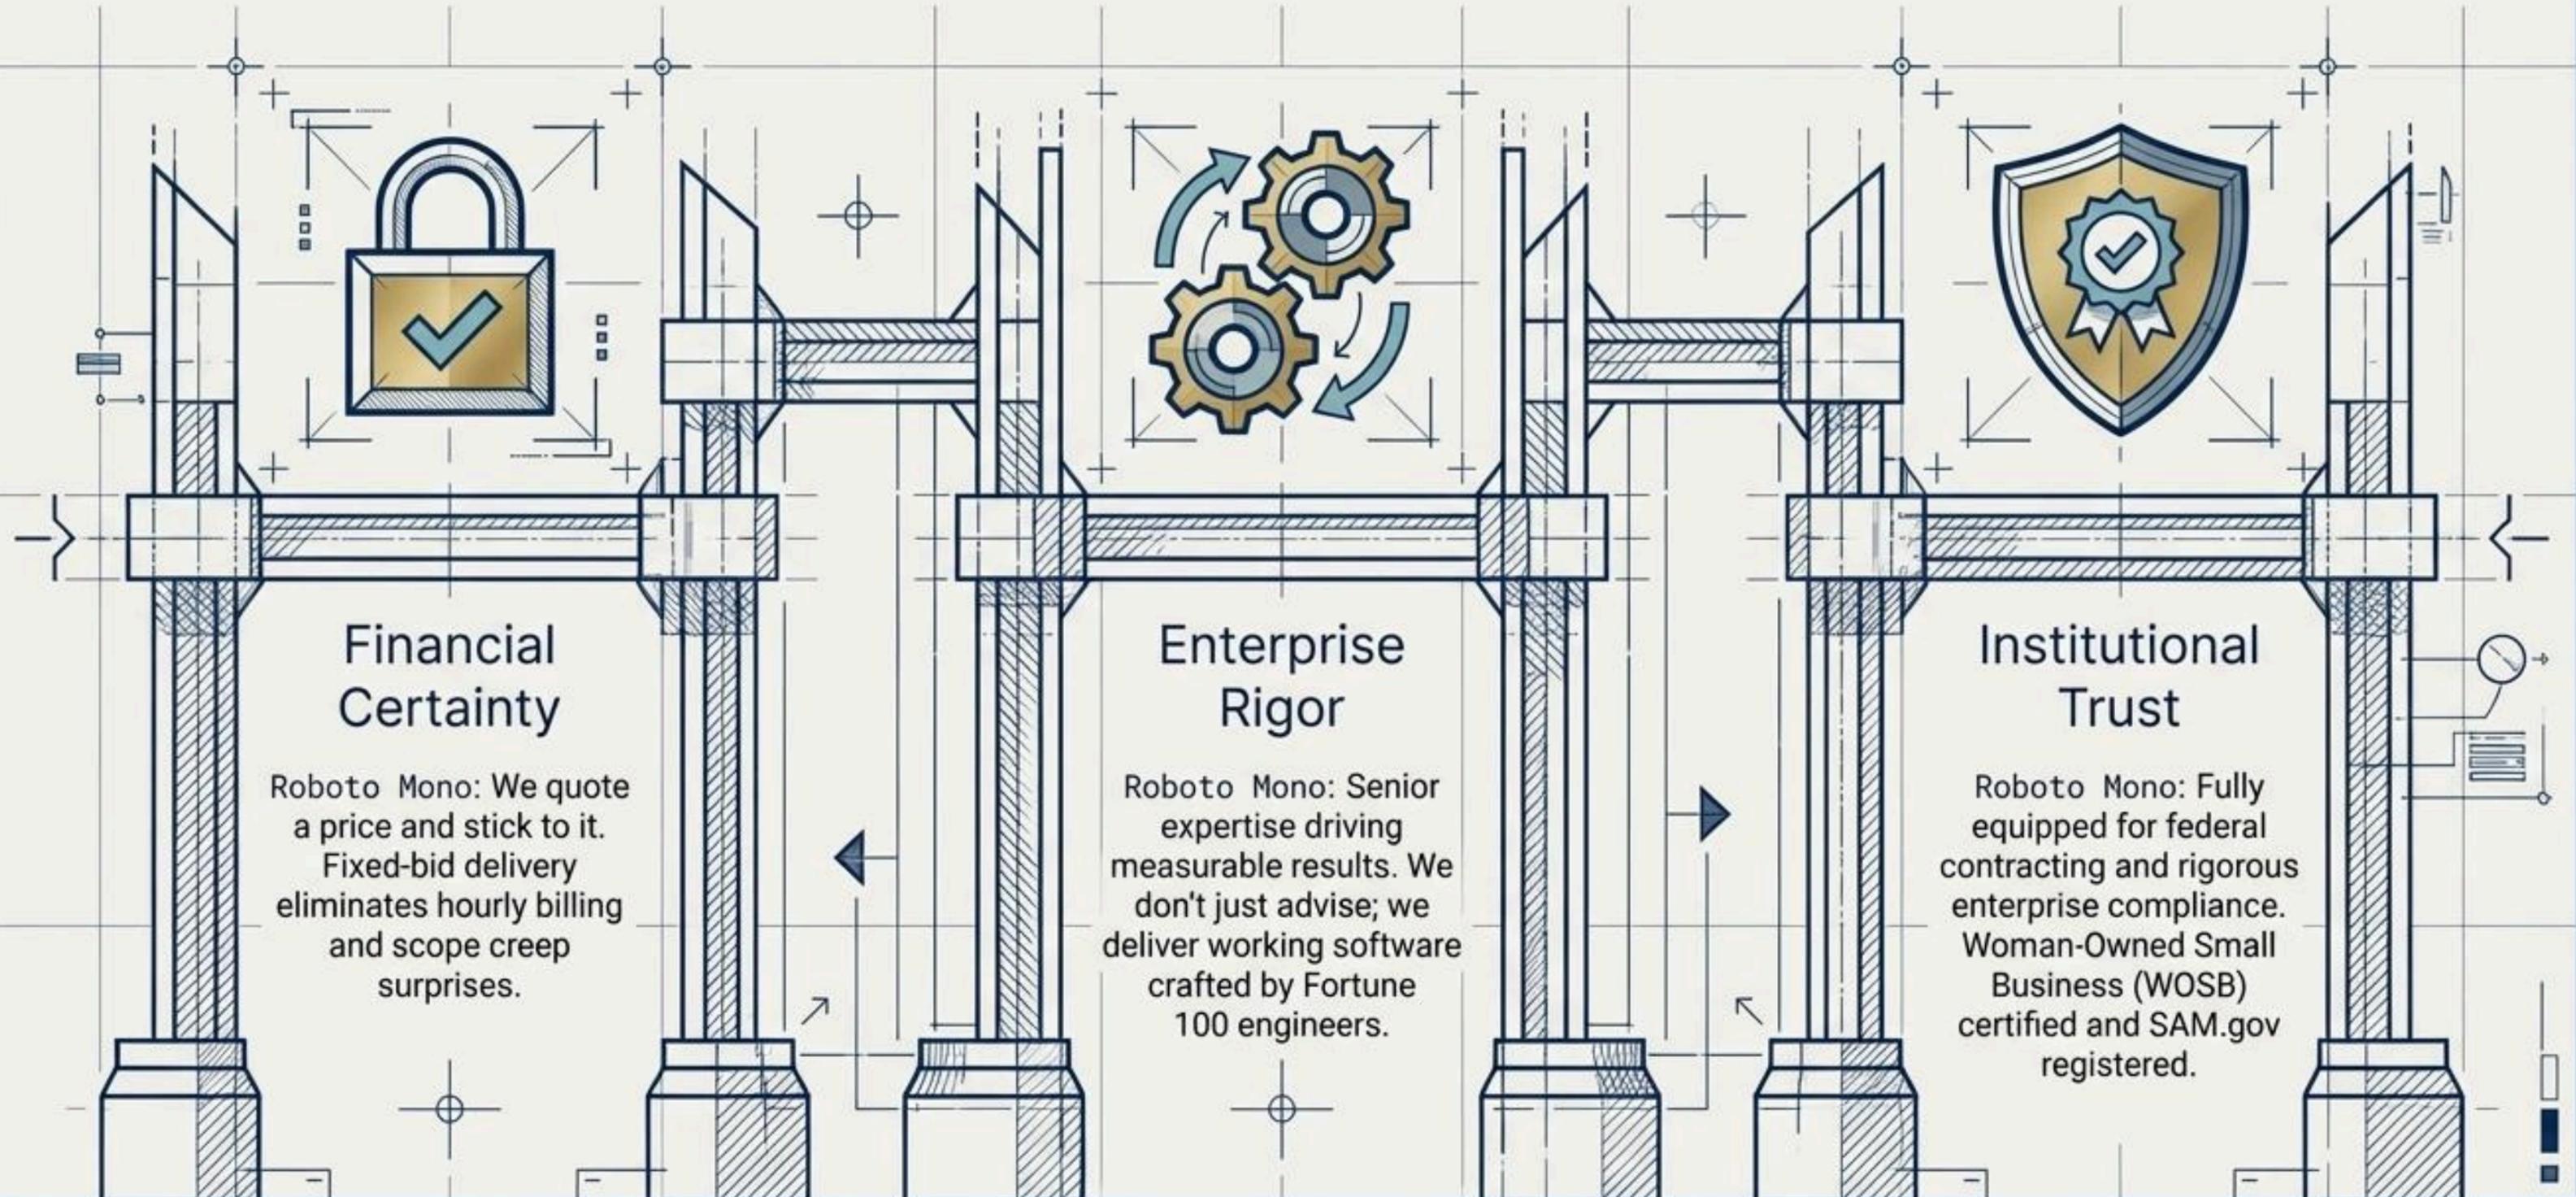

Fortune 100 Senior Experts (alumni of American Express and Nike)

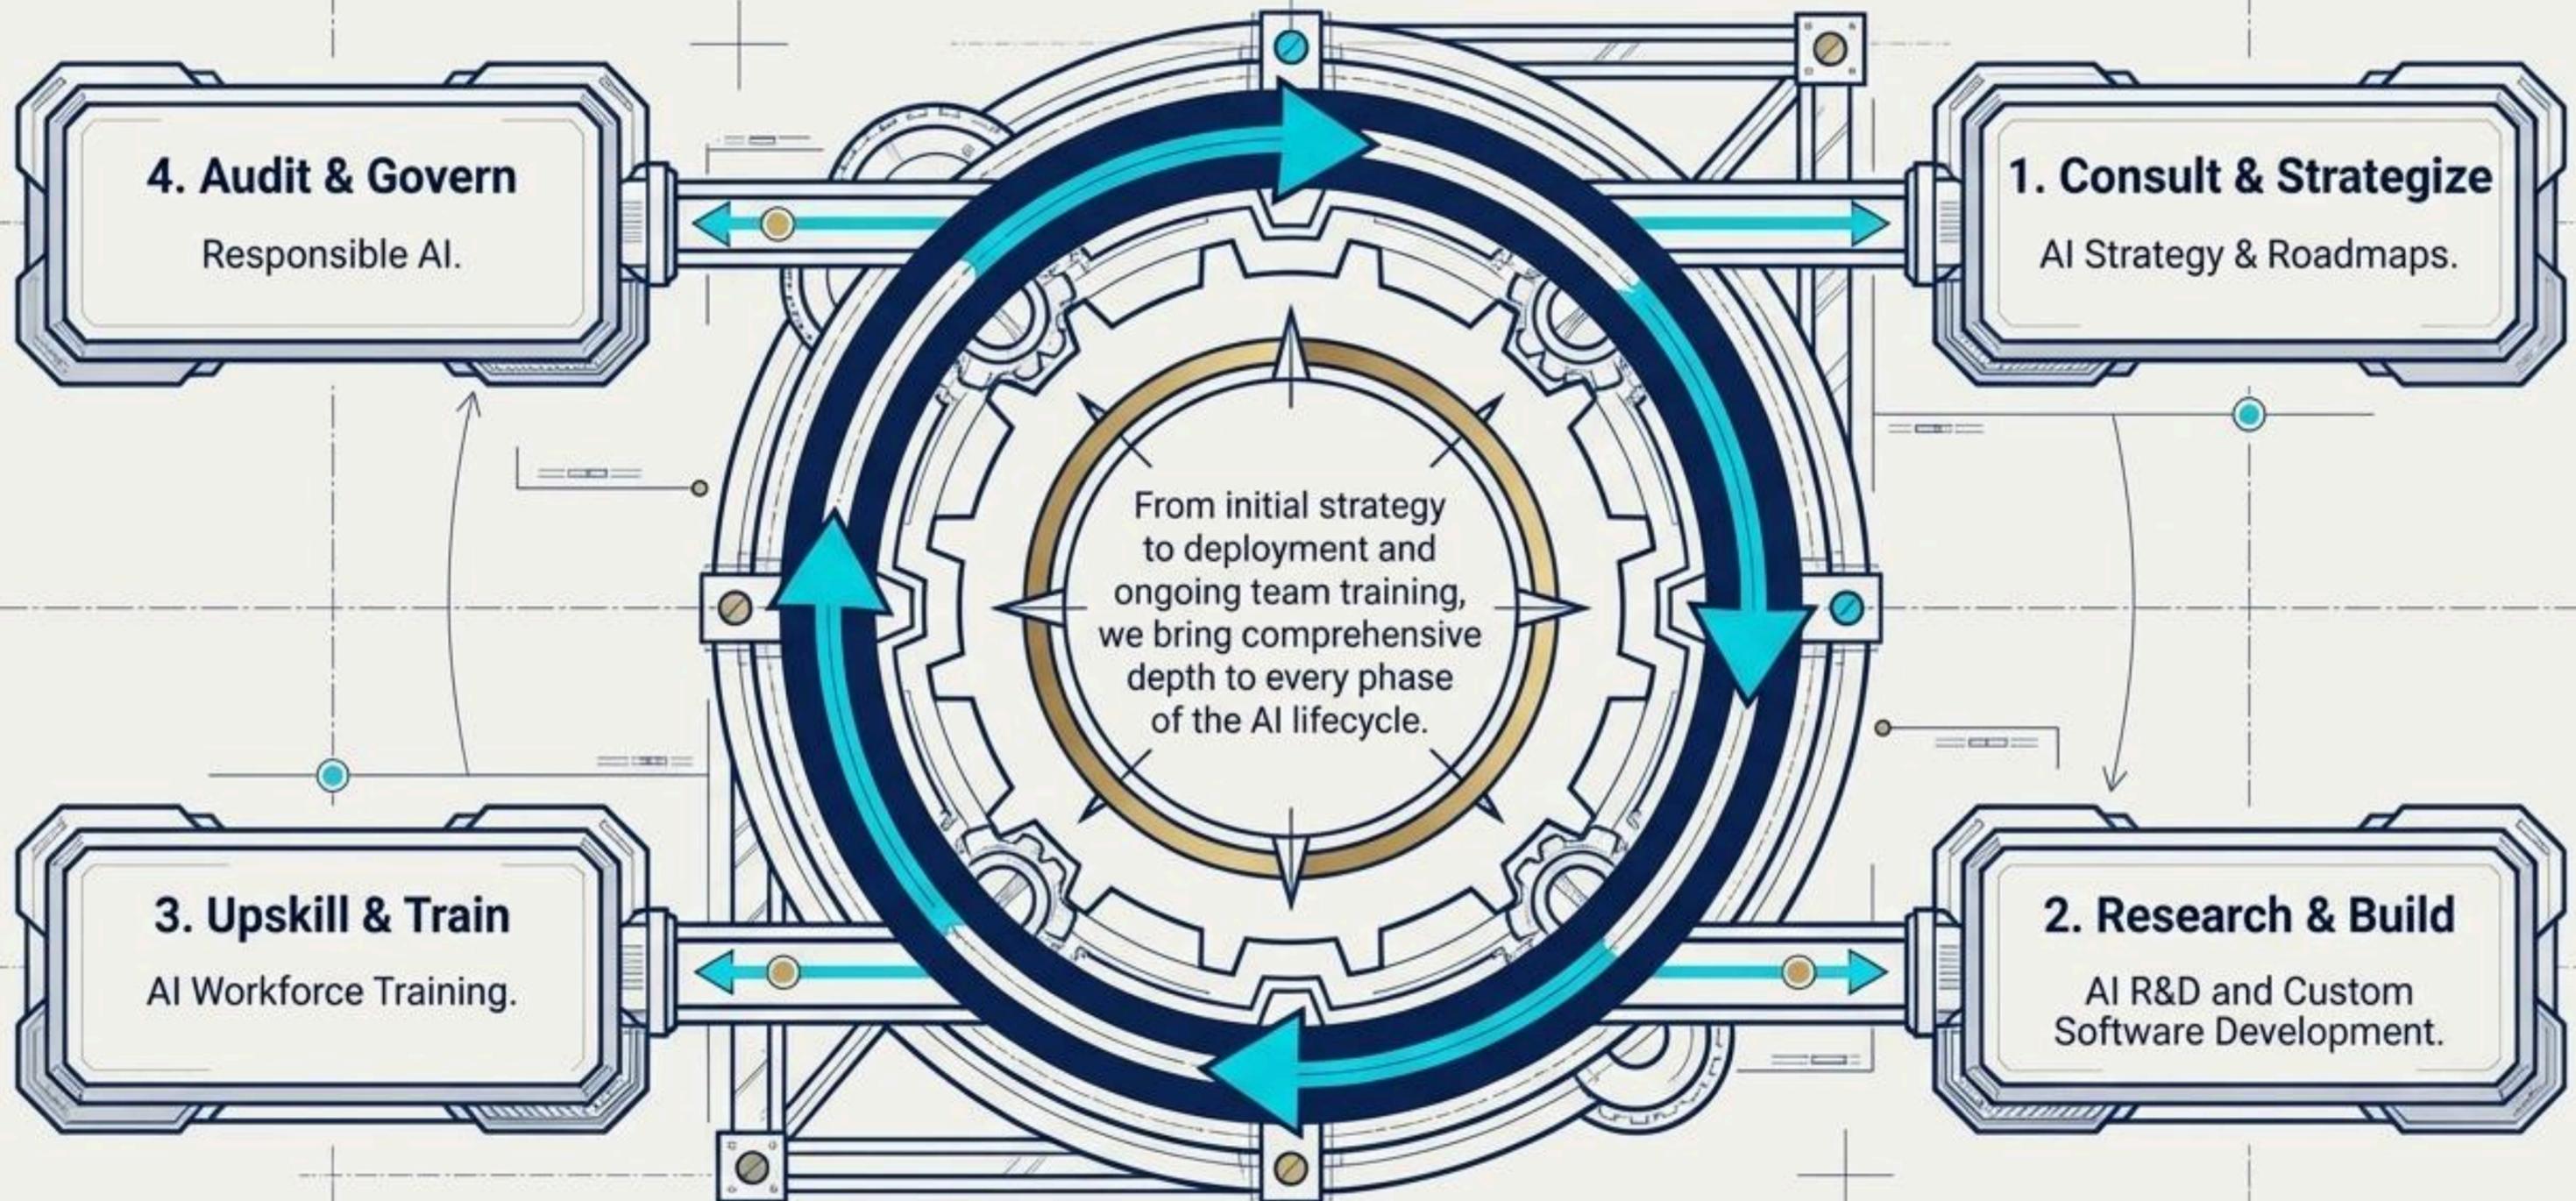

Built-in Responsible AI and robust governance frameworks

# Built on predictability, enterprise rigor, and institutional trust.

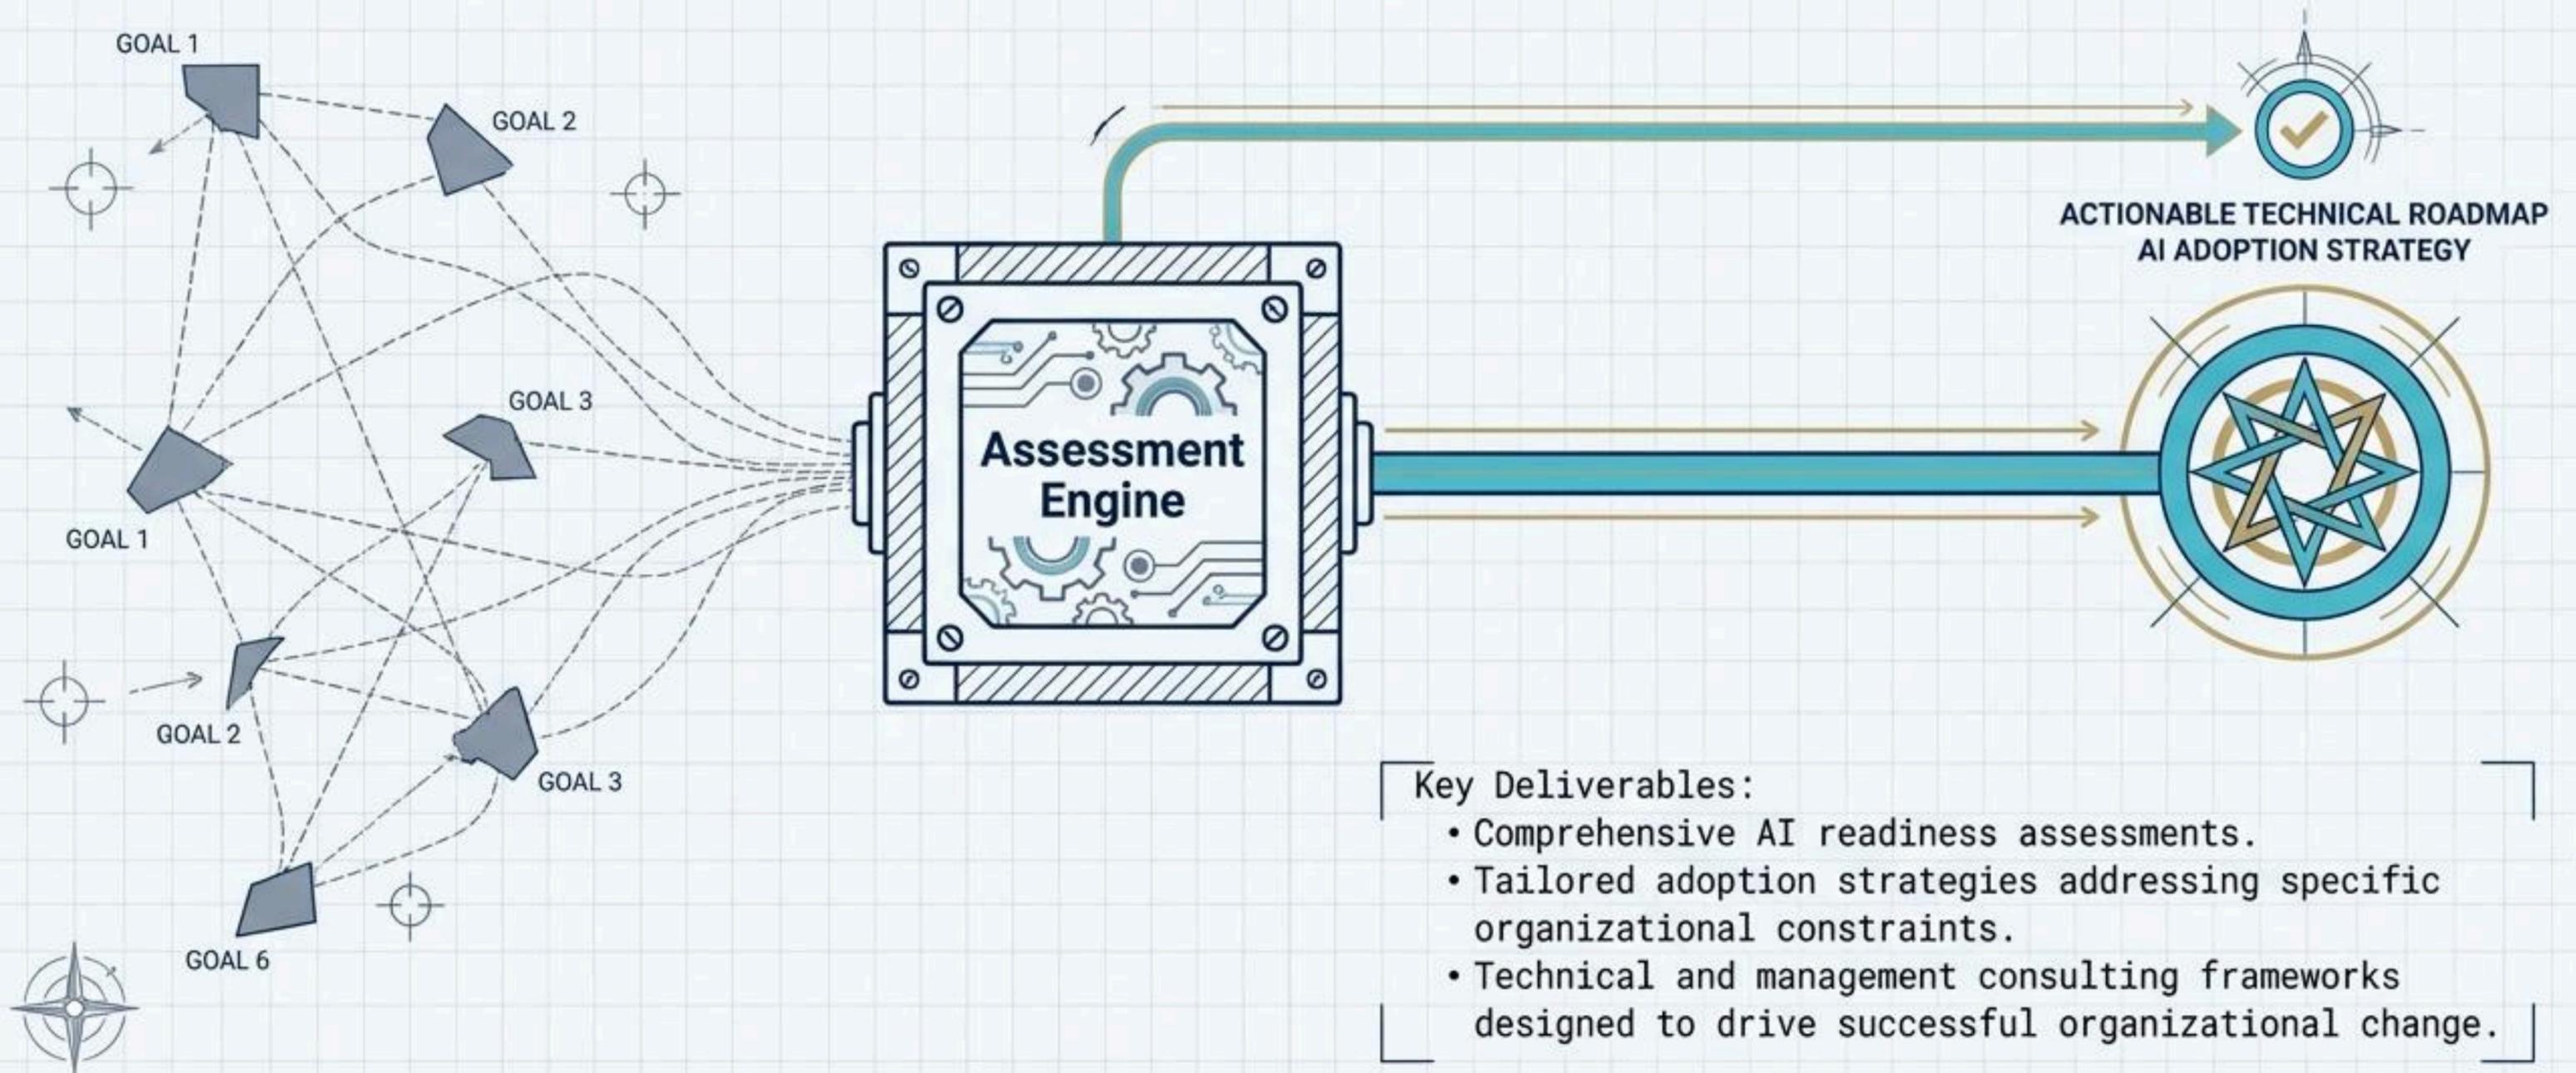

# A continuous engine for enterprise AI adoption and governance.

# Translating ambition into actionable technical roadmaps.

Service Focus: AI Consulting & Strategy

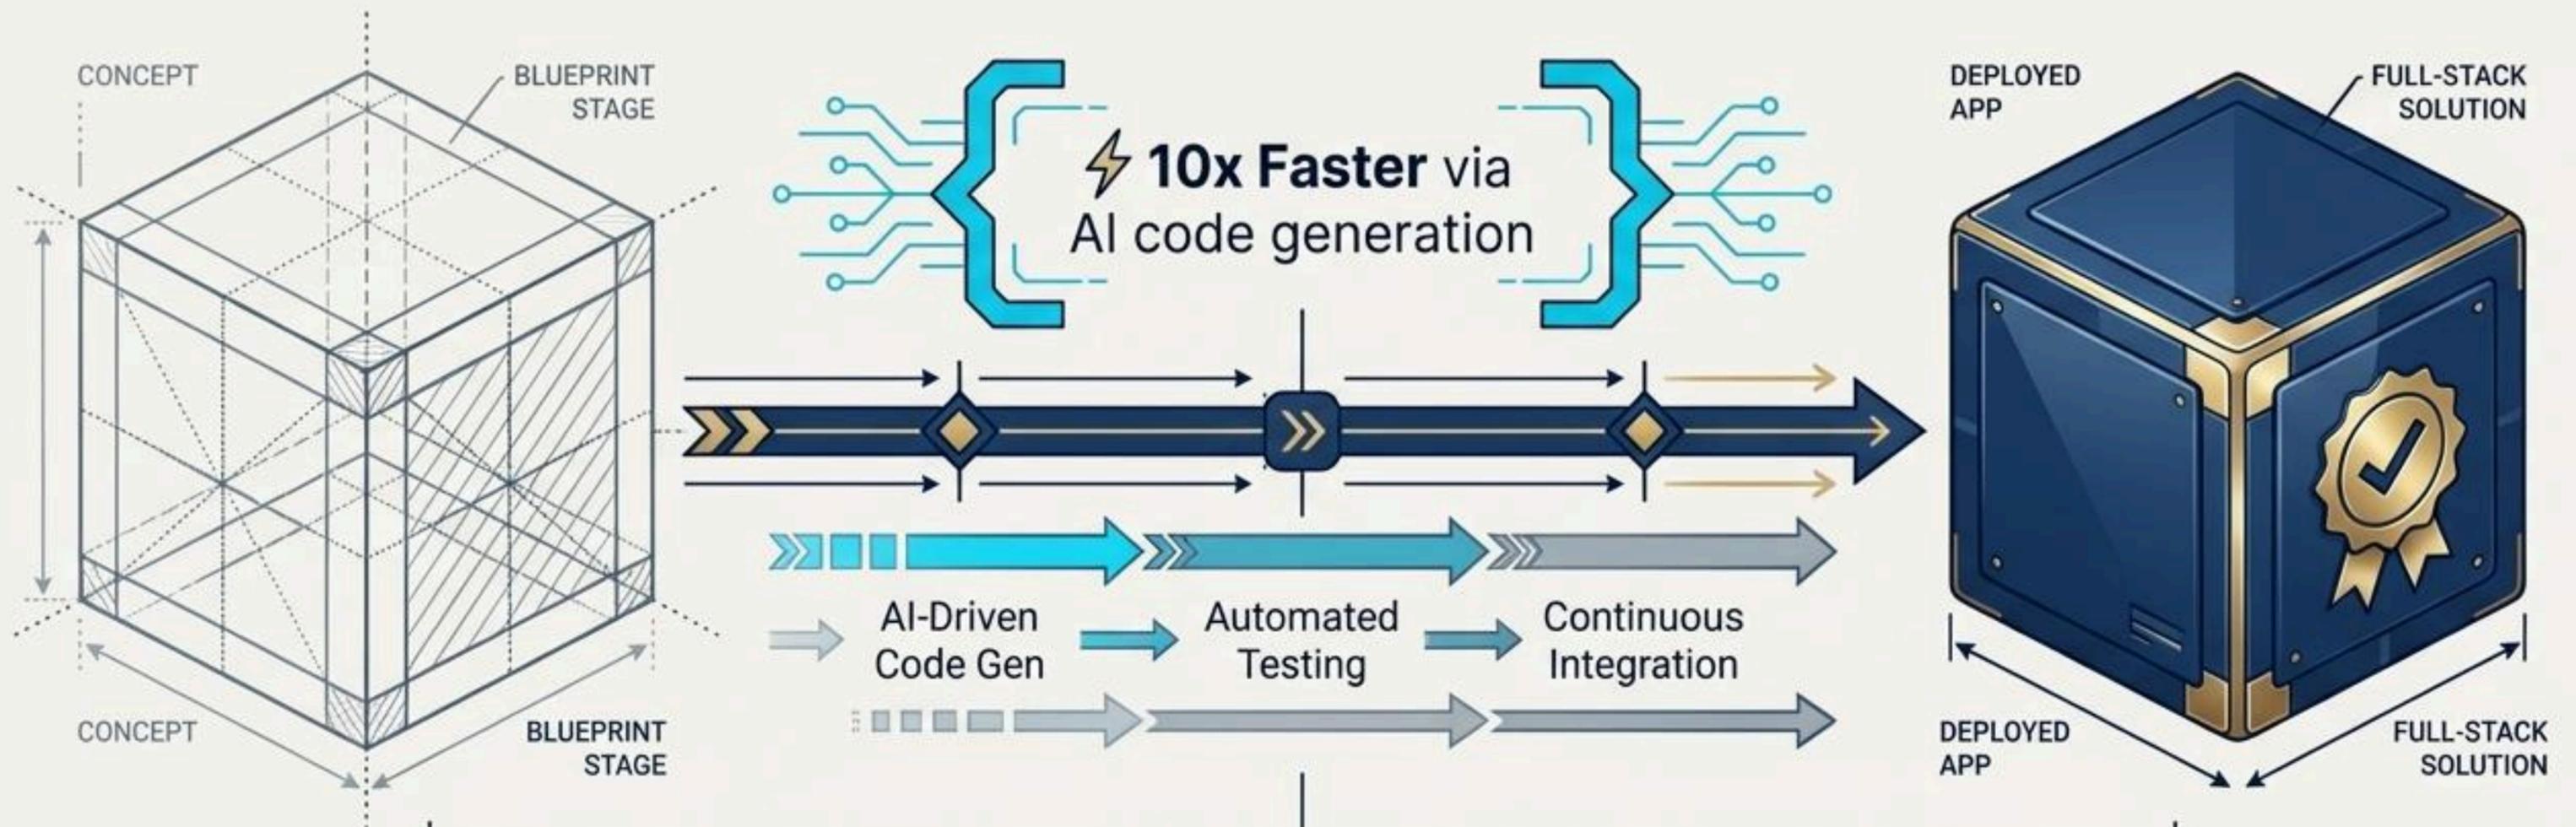

## Key Deliverables:

- Comprehensive AI readiness assessments.
- Tailored adoption strategies addressing specific organizational constraints.
- Technical and management consulting frameworks designed to drive successful organizational change.

# Delivering custom full-stack applications in weeks, not months.

Service Focus: AI R&D and Software Development

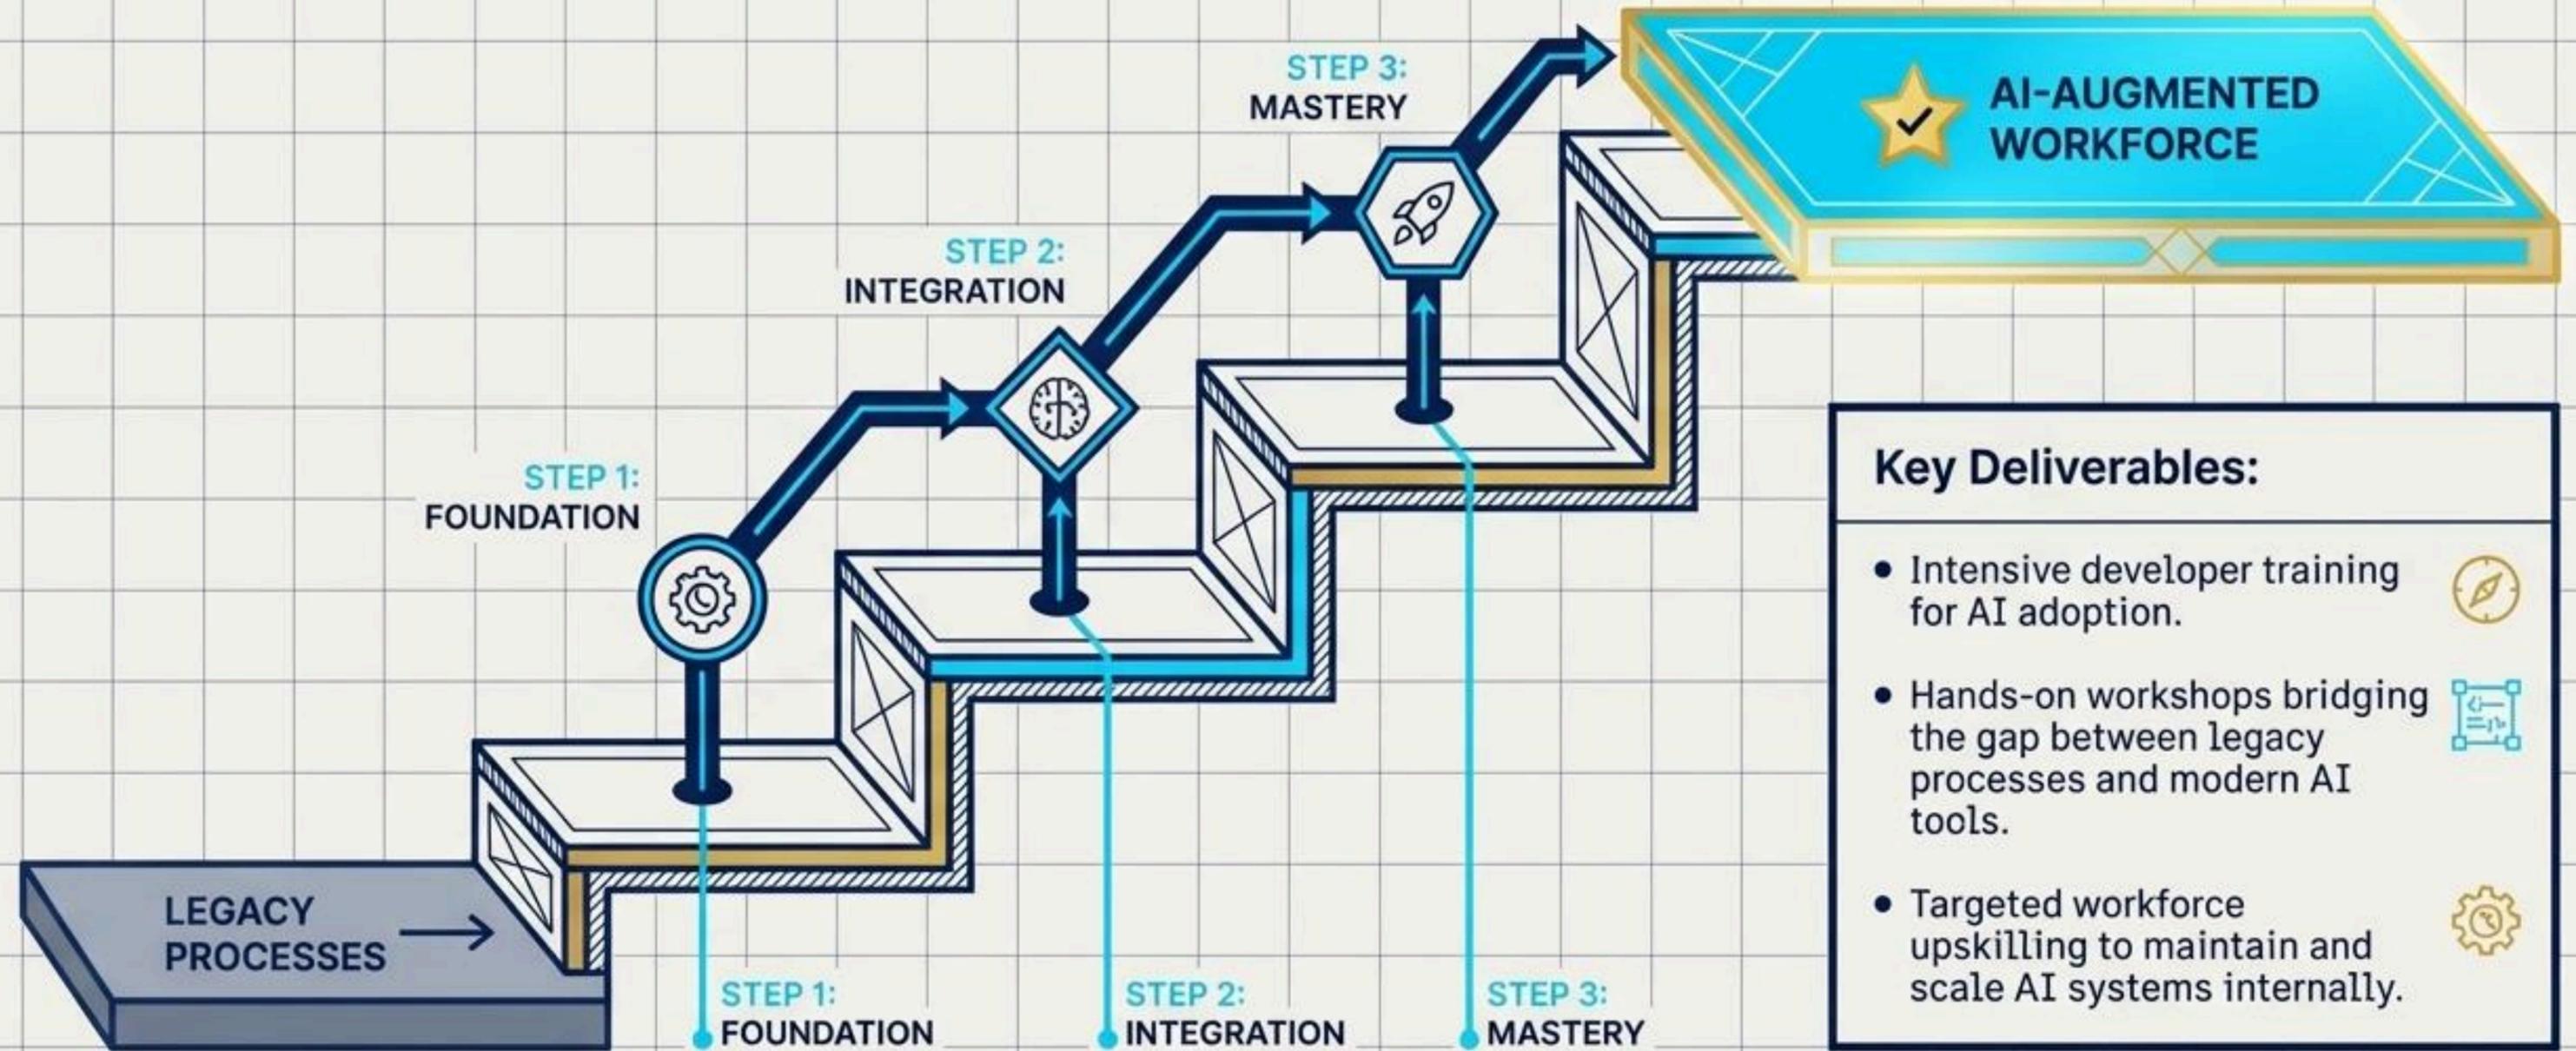

## Key Deliverables:

- Applied AI research and rapid proof-of-concept (POC) development.
- Exploration of emerging technologies tailored to specific use cases.
- Fixed-bid custom software built with AI-accelerated methods.

# Empowering your workforce with AI-powered development workflows

Service Focus: AI Training & Upskilling

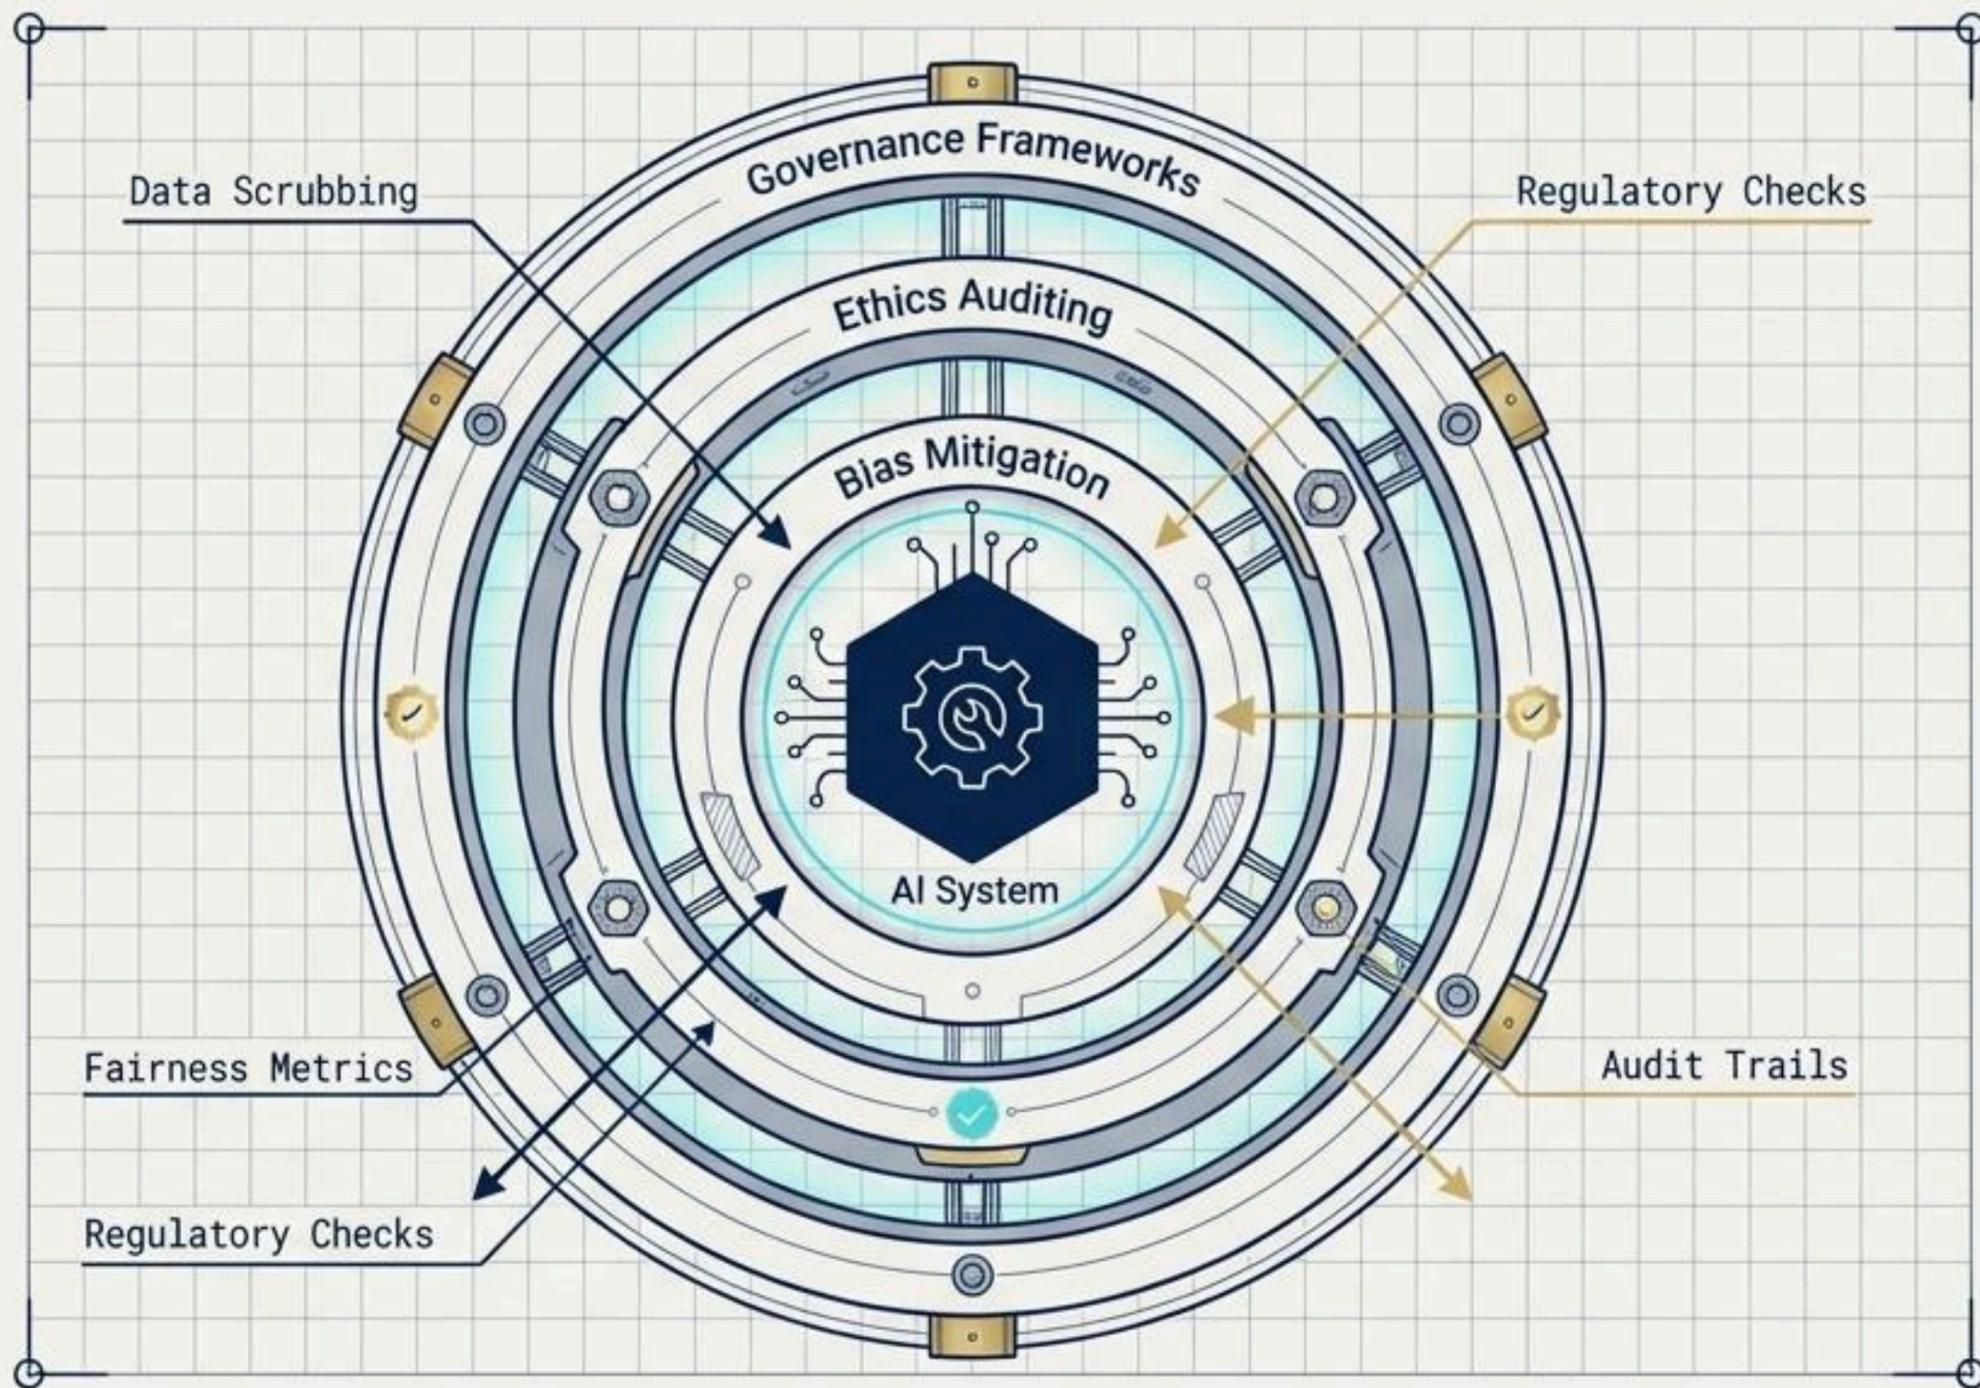

## Key Deliverables:

- Intensive developer training for AI adoption. 
- Hands-on workshops bridging the gap between legacy processes and modern AI tools. 
- Targeted workforce upskilling to maintain and scale AI systems internally. 

# Ensuring trustworthiness through comprehensive ethics and bias auditing

Service Focus: Responsible AI

## Key Deliverables:

- Rigorous AI ethics auditing.
- Algorithmic bias assessment and mitigation strategies.
- Implementation of robust governance frameworks to ensure all systems remain trustworthy and compliant.

# Equipped for federal compliance and Fortune 100 scale.

## PEDIGREE

Senior expertise backed by direct Fortune 100 experience building systems for American Express and Nike

## FEDERAL READINESS

WOSB Certified (Woman-Owned Small Business) and fully SAM.gov registered for federal contracting

## OUTCOME FOCUS

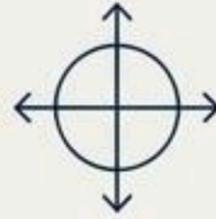

Measurable Results—we deliver fully operational, working software, not just presentation decks

# The calculus of predictable AI delivery.

We don't just advise. We deliver working software, trained teams, and secure governance with clear, upfront outcomes.

# Ready to navigate your AI challenges?

Tell us about your AI challenges.  
We'll give you an honest assessment  
and a clear path forward.
